— ASP Approved	
— Benefits Established & Greenfield Areas	
— Benefits New Community Growth Areas	

Notes:

1. Projects identified are capital infrastructure, directed/led by Water Resources. Other utility projects being done by Transportation Infrastructure and Alberta Transportation are not shown.
2. Excludes some activities at treatment plants and all program activities.
3. Long-term projects spanned over two business cycles are shown as 2019 to 2022 and 2023 to 2026.
4. The purpose of this map is to visualize the Water Utility linear infrastructure projects which are to be included in the off-site levy to service approved growth. Please note, additional refinement and updates will be required.

Stormwater - Draft Off-Site Levy Eligible Infrastructure Map

Conceptual: The timing and alignment of identified projects are subject to change
