Hello property owner

Your annual property assessment is on the reverse of this page. Please review this important information and contact us if you have questions about your property assessment.

We are required to have accurate and up-to-date property information for assessment purposes. Your 2022 property assessment reflects the market value of your property on July 1, 2021 and the characteristics and physical condition of the property on December 31, 2021. Assessment gathers property information from various sources but you are the most reliable source of information about your property. It's important you keep your information current, as inaccurate property details may result in assessments that do not accurately reflect the value of your property. Please visit at calgary.ca/assessment to learn about how property is assessed each year.

The assessment of your property is used to calculate your annual property tax bill. A change in your assessment value does not necessarily mean an increase or decrease in your property taxes. Property tax changes are generally impacted by the change in the assessed value of your property relative to the average assessment change for all properties in your property class. The City offers a preliminary property tax calculator to help property owners estimate their upcoming taxes. To learn more visit calgary.ca/taxcalculator.
